LaSalle Network

Driving Growth:
Supplying Talent to Meet Surging Demand

Information Technology

Contract Staffing

Technology: PMO

This organization empowers businesses to modernize their IT infrastructure and applications through cloud migration, data center consolidation, and mainframe upgrades.

CHALLENGE

This client was experiencing an uptick in sales and needed contract talent to ensure their clients were supported and successfully onboarded.

GOAL

Scale up their workforce on a contract basis to meet the increased demand they were facing.

6	**100%**	**30d**
Placements	Project completion	Avg. time to fill

LaSalle Network successfully placed six project managers supporting infrastructure and software release projects. These were project-based hires and they were employed on a six-month assignment.
